

Mi 360° Camera (1080p)

Key Features

- 1080p Resolution
- Enhanced Night Vision in Low Light
- New AI Human Detection
- Free 7-Day Rolling Cloud Storage
- Fast-Forward Playback Speed
- H.265 Code
- Supports Google Assistant and Alexa*
- Full Encryption for Privacy Protection

**It may require OTA firmware update*

Clear and Crisp Image

Standard security camera

Mi 360° Camera (1080p)

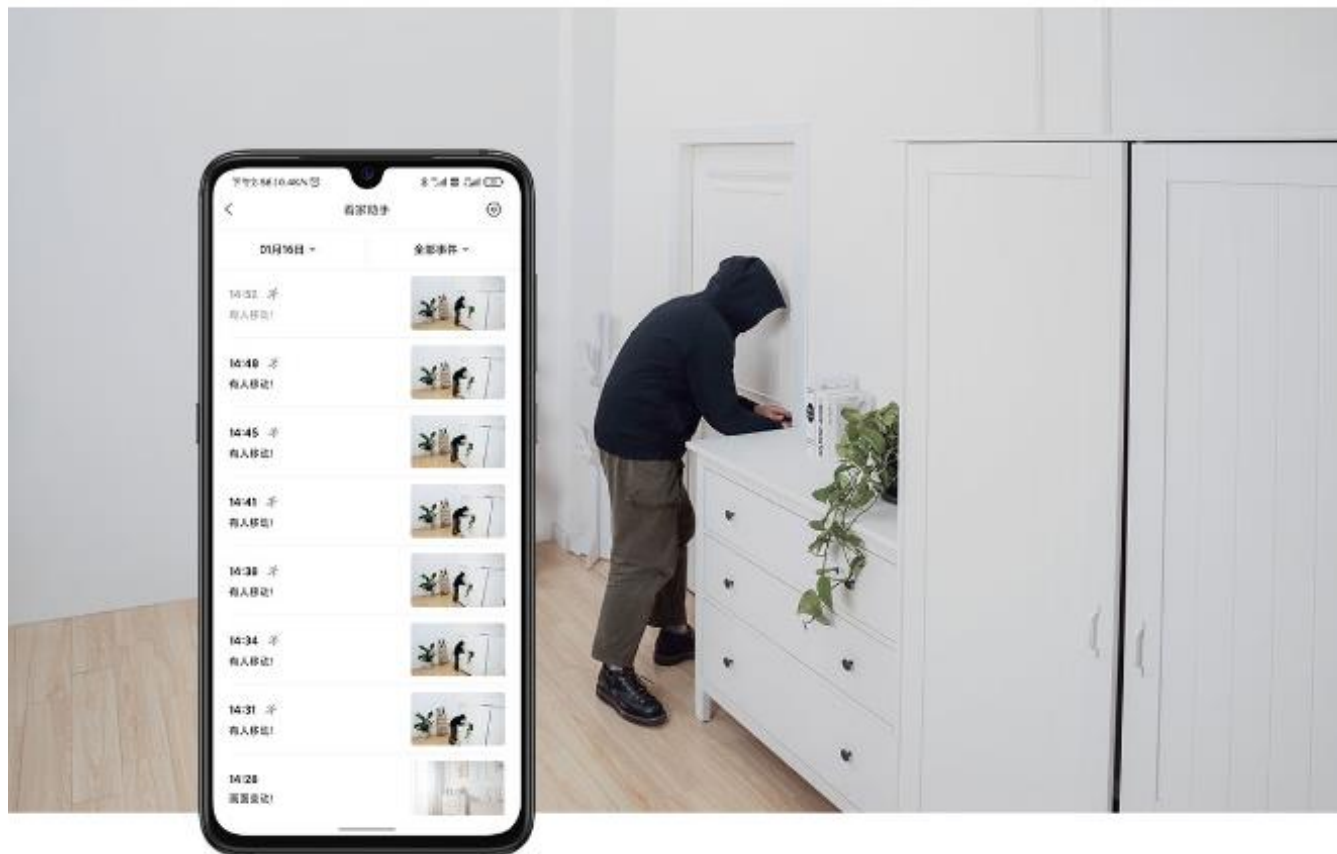

- Features 1920*1080p mega pixels full HD, displaying sharp and smooth videos
- Supports WDR technology, allowing camera to perform well in challenging lighting conditions and capture crisp videos

Enhanced Night Vision

Invisible 940nm infrared LEDs offer you enhanced night vision without making any interruption

AI Human Detection

Combined with the application of AI with deep learning technology, the optimized algorithm effectively filters invalid alarms and makes the alarm more accurate.

Smart Control

Display camera video output on your device

Simply ask your Mi Smart Clock* to show real-time video output from your camera

*Voice control function available on smart speaker and smart display devices that work with Google Assistant or Amazon Alexa.

Two-way Call

Two-way voice calls in real time, so you can "visit home" whenever you like

Supports two-way real-time voice calling that feels like a face-to-face conversation, so you can chat intimately with your loved ones no matter where you are.

360° Panoramic

360° pan-tilt-zoom panoramic view for all-round monitoring with no blind spots

The dual motor head enables the camera to rotate and capture a full 360° horizontal view and 108° vertical view.

H.265 Video Coding

Available recording storage
increased by 100%

Bandwidth use
reduced by 50%

Free 7-Day Rolling Cloud Storage

Freely store recorded motion-triggered video clips for one week, which helps you keep a virtual eye on your home.

Full Encryption for Privacy Protection

Comprehensive encryption secures your privacy

- Secure Cloud storage using 128-bit Advanced Encryption Standard (AES) and the whole data transmission is encrypted;
- Timer to activate the sleep mode providing more safe privacy protection.

Install Upright or Inverted

The camera is pre-installed with the rotation base and can be placed on a table, window, ceiling, or wall.
